Diamonds

Have been steadily advancing in price for some years back. Those who are posted in the present value of DIAMONDS are surprised at the value we give in our DIAMOND RINGS from \$18.00 to \$95.00. Take a look at some of them in our window; note the color, the brilliancy, and the size, and we think you will conclude that we not only buy them right, but sell them at a small margin.

GREAT VICTORY FOR CONSERVATIVE PARTY

Laurier Sustains Most Disastrous Defeat in
History of Canada

The Liberal party has been swept from power by the vote of the people of Canada and the Conservative party rule in their stead. Four short months ago such a thing could hardly have been imagined.

The news was received in Red Deer with mingled consternation and joy. The early returns, showing the election of Dr. Clark, made the Liberals very sure of winning the Dominion, and the gloom that settled over the party when they began to receive the

returns could be felt. The Conservatives, on the other hand, felt victory in the air, and very soon their fondest hopes were realized. Shortly after ten o'clock about a hundred of the stalwarts formed up in procession and marched to the Liberal com-

mittee rooms and Lyric Theatre singing the "Maple Leaf," "Rule Britannia" and other national airs. They then visited the Windsor hotel, the residence of H. H. Gaetz and other places with lighted torches, and kept up a jovial celebration until long past midnight.

R. B. BENNETT TRADED.

H. H. Gaetz Makes Uncalled For
Attack

"It is seldom a campaign is fought in the west without some bitter remarks being made which rattle in the minds of the public. But the present campaign has been fairly clean and the News has no regrets on this score.

But the Clark meeting on Tuesday night was an exception to the general rule.

H. H. Gaetz took advantage of the occasion to make one of the most bitter and uncalled for attacks on R. B. Bennett ever heard in Red Deer. The statements made were untruthful and unjust, and the language used by the speaker was unfit for publication. He worked himself up to such a state of excitement that it was impossible for him at times to speak, and his friends feared for his life. Many who knew him best refrained from giving him the calling down that was coming to him for that reason. He used no argument; it was simply abuse and insult.

Mr. Gaetz made remarks against Mr. Bennett of which he should be ashamed. Mr. Bennett is not only the most brilliant man we have in the west, but a man of irreproachable character, a temperance man, and a staunch member of the church Mr. Gaetz attends, and a man who was invited to be the guest of the pastor of his church could he have remained in Red Deer over night. We say it, and we say it unhesitatingly, that when a man makes such a public speaker cannot control his temper he has no right to get on a public platform and insult gentlemen by angry vituperation when he has not the ability to answer their arguments.

By-Laws Carried

The two by-laws revoted Monday last were carried unanimously, there being 28 votes for and none against them. These by-laws were for the purpose of borrowing \$9,000 to purchase a park and \$10,500 for the purchase of the exhibition association grounds. They were revoted because they were extended over a period of 30 years, whereas by-laws of this character should only be extended over a period of 20 years. The fact that the ratepayers passed these by-laws absolutely without a dissenting voice proves that they have full confidence in the municipal government of the town.

A Contrast

When A. A. McGillivray passed through Red Deer, Friday, after his defeat, a great crowd of his supporters met him with cheers and carried him on their shoulders. That was victory in defeat.

Dr. Michael Clark passed through yesterday on his way to Stettler, and only two of his supporters met him. He was heard to remark that we would have to go back to rabbits now.

That was defeat in victory.

THE VOTE IN RED DEER.

It is impossible to get the full returns of the vote in the Red Deer constituency, but we will give them as soon as they are handed out by the returning officer. The following was the vote in Red Deer:

West	64	64
East	139	159
North	81	53

284 276

This gives a majority of eight for Clark. In the riding Clark is elected by a thousand votes or over.

J. Lyons was up to Athabasca Landing to see a sick brother on Saturday, returning on Monday evening. We are glad to report he is better.

The cricket match between the town and a team from the A.C.R., scheduled for Saturday afternoon, was indefinitely postponed on account of the weather.

George Thompson, editor of the Rocky Mountain House Echo, was one of Mr. McGillivray's most active supporters at Prairie Grange and Rocky Mountain House.

The finals for the Alberta football championship will be played on Saturday at Calgary between Calgary and Edmonton, when W. Hadley will referee the game.

The northbound train on Tuesday had on five extra coaches to carry the large number of investors going to Coronation to attend the sale of the townsite lots.

Out at Prairie Grange Mr. Cunningham and Dr. Gray celebrated the election victory by a bonfire, although they had not heard the good news. They were so sure victory was in the air that they had a celebration anyway.

L. B. Cochran and daughter, Mrs. Chudleigh, were passengers on Tuesday's noon train on their way north for a holiday. Mr. Cochran was at one time Dominion Land Agent at Medicine Hat, which position he held for several years.

Anniversary Services

Congregations, like individuals, do well to observe in some special way the anniversary of their birthday. The strong, positive, evangelical messages of the Rev. Dr. McQueen, of Edmonton, at the anniversary services of the Presbyterian church last Sunday were worthy of the occasion and revealed the strength of one of the stalwarts who for the last quarter of a century, has stood for the highest things in the life of this province. His address in the afternoon on church life and work in the early days made one feel that when the history of this province is written the work of the missionaries and their wives ought not to be left out of it by the singers made the ladies' supper table was so large that the ladies, for the first time in their experience, began to run short of supplies after an hour and a half of serving. This was the more disappointing to them when they discovered later that the boys appointed to collect had neglected to call at several homes where supplies were waiting.

The concert in the church was of such uniform merit that to specify particular merit would be difficult. The splendid taste shown in the choice of the music and the delightful rendering of it by the singers made the concert a fitting close to these most helpful services that mark another milestone in the life of the congregation. The following was the programme:

Anthem—"Arise, Shine." Choir.
Solo—"Nearer My God to Thee." E. C. Johns.
Male Quartette—"One Sweetly Solenn Thought," Messrs. Coote, Johnson, Johns and Richardson.
Ladies' Quartette—"A Distant Hymn," Mesdames Coote and Black and Misses Scott and Brown.
Duet—"Love Divine," Mrs. Collison and Mr. Johns.
Speech—Rev. Dr. McQueen, introduced by Rev. Brown.
Anthem—"How Long Wilt Thou Forget Me," Choir.
Solo—"The Watchman," Mr. Johnson.

Ladies' Sextette—"The Holy Child," Mrs. Reid, Mrs. Collison, Miss Black, Mrs. Brown, Miss Scott, Miss Black.

Male Quartette—"Now the Day is Over," Messrs. Coote, Johns, Mitchell, Richardson.
Solo—"Toot's Goodbye," Mrs. Collison.
Anthem—"Saviour, Source of Every Blessing," choir.

"IN MEMORIAM."
SLEATH.—On the 21st September, 1908, at Red Deer, Canada, Clara Annie, the dearly beloved wife of John Sleath.

In fond remembrance.
SLEATH.—In ever loving memory of our dear mamma, who died on the 21st September, 1908.—Maud and Dorothy.

The bright smiling welcome, the fond word of greeting,
The feet once so tireless, the hands swift and kind,
The dear look so loving, the calm voice so patient,
Are gone from our sight but never from mind.

LET'S TALK BUSINESS!

Differences of opinion there have been, and differences of opinion there will continue to be. But one thing upon which we can all agree is that—

As an Established Centre Red Deer is more than a promise—it has become an actuality.

We have had faith in RED DEER and that faith has been amply justified.

RED DEER is now where Calgary, Edmonton, Saskatoon and other western cities were a few years ago.

RED DEER offers the same opportunity as those cities offered before their great advance.

RED DEER is to-day the place of great opportunity for the Investor of Moderate Means.

This little talk has a two-fold purpose.

FIRST: We want to do our share of legitimate publicity work for the general good. We have a good town. We want to let the rest of the world know it.

And SECONDLY: We want to sell Real Estate. That is our business. Our field is Red Deer and District, and we believe we are thoroughly familiar with values, and can thus be of service to the investor. We have some good buys to offer in

"TRADE WHERE THE TRADING'S GOOD"

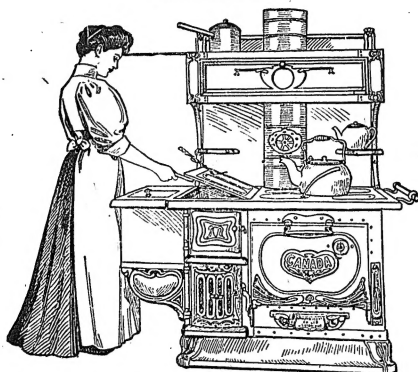

NEW STOVES

We don't want to use many adjectives in our stove talk--anyone can do this--suffice it to say that for every one sold last year we have sold nearly four this year - "There's a reason"

Any MAIL ORDERS entrusted to us will have our prompt attention, and FREIGHT will be PREPAID to any point on the C. & E. Line, or the Lacomde-Castor Branch

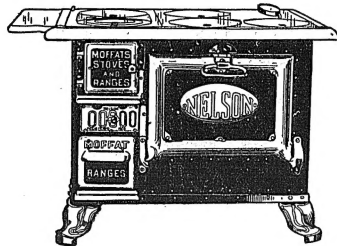

RANGES

Four hundred per cent. seems a big increase in one year, but this is actually what we have done, and here are the lines we have done it with:

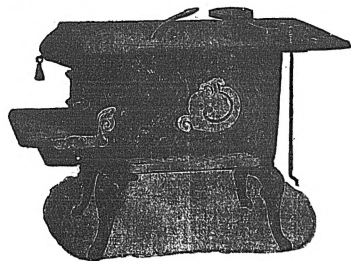

For beauty, strength and simplicity we challenge comparison. Leading Stove experts pronounce the CANADA B the best "throughout" steel range in America.

CANADA B, full nickled, high closet and reservoir	- 9-20	\$70.00
Same as above	- 0-18	63.00
NELSON B, full nickled, high closet, copper reservoir	- 0-20	55.00
Same as above, but perfectly plain	- 0-20	52.50
NELSON B, full nickled, high closet, copper reservoir	- 0-18	45.00
HUDSON, plain, high closet and galvanized reservoir	- 0-16	40.00

NELSON, plain and square	- - -	9-20	35.00
NELSON, plain and square	- - -	9-18	22.50
NELSON, plain and square	- - -	9-14	17.00

THE CASTLE COOK shown above is a medium priced cast top Stove, with a steel body, steel oven and cast iron outside dress. Has a large pouch feed for soft coal, while the revolving duplex grate will permit of burning wood or coal of any kind. Aluminized inside, anti-rust, and cannot be destroyed with heat.

Plain (without reservoir)	- - -	\$25.00
Extended (with reservoir)	- - -	31.00

THE JOY WOOD COOK

Is a large No. 9 Cook Stove that we secured from Quebec. It has a large oven and is substantially built, and is the best stove for the money we have ever seen. We have tried everywhere in Canada for a good low priced stove, and this represents the result of our search.

Price only \$14.65

HEATERS

STRATHCONA HOT BLASTS

This stove is one we have handled with the most satisfactory results for the past eight years. The body is made of heavy Russian iron, ornamental dome top, lap jointed to body. Nickel plated swing cover, ring, rail base trimmings, etc. Hot blast draft, which is the draft of the stove, and burns all the gas in the coal. This draft, in connection with the absolute airtight construction, discharges a blast of fresh air over the surface of the coal, saves waste and gives a steady controllable heat. Feed door is absolutely smoke proof. Above fire pot inside is a steel lining which prevents action of fire on the body. Extra large ash pan. Grate can be shaken without opening ash pit door. Clean out draft door lifts up, and is held by patent malleable attachment.

No.	115	118	1118
Price	\$18.00	20.00	23.00

THE RIVERSIDE OAK

Is perhaps the only stove that comes into Alberta in straight carloads. We do not think there is a better stove made for school houses, churches or public buildings, and burns either wood or coal, but is much better adapted for the latter, and will burn the ordinary lignite such as we have here as well as the best hard coal. It is on an improved principle of direct draft heaters, and combines an easily applied system of ventilating and heating. The ventiduct fine removes the cold air from the floor, passes it through the fire chamber, intensely heating and purifying it, after which it is distributed through open swing cover into the room. The fire pot is unusually heavy and durable. The body is made of heavy polished cold rolled steel. It is ornamental in appearance and will thoroughly satisfy purchaser in volume of heat produced.

No.	23	24	514
Price	\$29.00	32.00	33.00

THE ALBERTA

The Duplex Grates and Annular Shaking Ring. These can be taken out in pieces without removing the fire pot. The Fire Pots also have been made nearly straight, giving larger capacity and less trouble from holding up the clinkers and ash. The Feed Door in the Alberta is just the right size, and in the right place. The swing top is provided with a cover for the kettle. No smoke will go through the room when putting the coal in the new top feed door. This will also allow you to poke the coal in the fire pot without burning your fingers. The hot blast draft enters through this feed door and allows the hot air to be spread over the top of the fire, burning the gases.

No.	116	118	120
Price	\$22.00	25.00	28.00

THE FAIRY OAK

Herewith illustrated, are always very popular and are big heaters at a moderate price.

The bodies are made of one piece heavy superior cold rolled steel and flanged top and bottom. In mounting, the body is forced over a flange on top of fire pot into cement filled cup joint. Body flange is then turned, and over this deflector ring is bolted, making an absolutely airtight joint, which cannot open or leak.

No.	13	15	17	19
Price	\$12.50	15.00	18.50	22.00

DERBY OAK

Very similar to the Fairy Oak but the castings are lighter, and it is not so well nickled. For a medium priced stove we are sure it will be a great favorite.

Nos.	11	13	15 and 17
Price	\$7.00	9.00	11.50 14.50

TOGO AIRTIGHT

This has been a great seller in the district west of Red Deer, and is especially adapted for burning wood. They are made of Russia iron bodies, anti-rust coated, cast iron main top, swinging top feed opening. Nickel plated rail around bottom, heavy corrugated steel linings, double seamed steel bottoms.

No.	21	26
Price	13.50	17.00

AIRTIGHTS

Sheet top made of smooth iron, lined above fire belt, cast iron draft register. All well constructed and thoroughly dependable.

No.	118	121	122
Price	\$2.50	3.25	4.00

BOX STOVES

Perhaps as good a stove as you can have where wood is plentiful and cheap. The number of the stove indicates the length of stick that can be used.

18	22	25	28	31	36
\$5.50	7.00	8.50	10.00	11.00	16.50

JUMBO HEATERS

Are a very strongly made cast stove with great heating capacity. They are perfectly plain in appearance, and represent the maximum heating ability at the minimum expense, and are only suitable for burning coal.

No.	30	40	60
Price	\$7.00	8.00	9.00

THE VICTORY.

Canada has once again spoken against reciprocity with our neighbors to the south of us, and the vote is so decisive that he who runs may read. It is a strange fact that the Liberal government itself asked that reciprocity should be the main issue, and they got their wish with a vengeance. All other issues were dropped in the one all-absorbing topic, and the great Liberal party of Canada is practically wiped off the slate.

The verdict is of far reaching consequences, and will tend to unite still stronger the imperial tie which binds us to the Mother Land.

R. L. Borden has behind him a number of the most able minds of the Dominion, and we sincerely hope when the personnel of the "cabinet" is announced that the name of R. B. Bennett will be found on the list. He is, without doubt, the most brilliant man we have in the west today, and for oratory he cannot be surpassed in Canada. His splendid victory in the city of Calgary entitles him to the highest honor in the gift of the party.

A. A. MCGILLIVRAY'S FIGHT.

No greater or more laudable contest was put up during the late campaign than that of A. A. McGillivray. Fighting against an old and popular member, against a cabinet minister, the premier of the province and dozens of M.P.s., he faced the whole gang fearlessly, and forced them in many instances into ignominious flight. Duncan Marshall was so overcome at Trochu that he fled to Ontario and others did not give the young warrior a chance to cross steel with them. The feelings of Red Deer and the constituency at large was voiced by the hundreds of citizens that met Mr. McGillivray at the depot Friday. They took him by their shoulders and marched around the platform, and Dr. Colison, as President of the Federal Conservative Association, thanked him for the splendid fight he had put up and promised him the loyal support of the electors should be again his our standard bearer. "We are defeated but undaunted," the doctor said, "and will never be satisfied until we have redeemed the riding." The enthusiastic crowd nearly shook Mr. McGillivray's arm off, and sang "The Maple Leaf For Ever" and "God Save the King" as the train was pulling out.

CAUSE OF OUR DEFEAT.

If there is one spot in Alberta where the United Farmers of Alberta have any weight, that spot should be Red Deer and Red Deer district.

Here is located James Bower, President of the organization, and in this constituency are several of the executive of the organization. Certainly every Alberta constituency has felt the influence of the U.F.A., and none of them more than Red Deer. James Bower, who has taken such an active part in favor of the government, and who claimed that he was largely responsible for the stand taken by Sir Wilfrid Laurier, has received his answer. Sir Wilfrid can thank Mr. Bower and his friends for his disastrous defeat. The twelve thousand members of the U. F. A. have wielded a mighty influence at the hands of James Bower and have won two or three seats in Alberta, but what a small insignificant figure that influence appears when compared with the vote of the whole Dominion. British Columbia alone makes up for Alberta's deficiency and even a ripple disturbs the surface of the great electoral vote.

And what about the future of the U.F.A.? Mr. Bower, by his friendship for the Liberals in the last campaign, can hardly link up with the wicked Tories. If he had adhered to the principles of the constitution to be strictly nonpolitical, he might now, with a great deal of force, appeal to Mr. Borden to take up the interest in the order. Mr. Borden offered the farmers of Alberta more than Sir Wilfrid Laurier did, yet he was given the cold shoulder by Mr. Bower and his friends and the government were deprived of several seats in the parliament of Canada, and no good has been accomplished. Further, a very bitter feeling has been engendered in the breasts of a large number of Conservative farmers, members of the order, who feel the U.F.A. has been made a cat's paw to pull the political chestnuts out of the fire by James Bower and other leaders of the order.

Leslieville

Among the week's visitors were: Mr. Gasearth, Mr. Eckford, and Mr. Fynn of Eekville, Dr. Brown of Rocky Mountain House, Mr. Michener, M.P.P., and Mr. A. McGillivray.

Mrs. A. N. McKinnon and child and Mrs. W. H. Foreman returned home from Red Deer this week. The Liberal meeting, which was held in the store room here last Monday evening, was well attended. The speakers were Dr. Clark, M. P., and T. B. Miller. All enjoyed hearing these three excellent speakers talk on reciprocity. The Conservative meeting was to have been held on Wednesday evening, and Mr. McGillivray and Mr. Michener came out for the purpose, but owing to some mistake the bills had not been sent here, consequently no one knew aught about the matter.

A number of the young people gathered at the home of Mr. and Mrs. Jno. Reilly on Tuesday evening last to bid farewell to the missionary students, Mr. H. S. Patton and Mr. H. A. Cameron, who have been with us on this field all summer. The evening was spent in games and music, after which refreshments and coffee were served.

THE BRITISH PRESS ON THE ELECTIONS.

THEY PREDICT A BRILLIANT FUTURE FOR CANADA

Mr. Borden Declared to Possess All the Qualities of Successful Prime Minister

With but slight exceptions the old country press comment on the election emphasizes the patriotic vote sounded by the people of Canada in their rejection of reciprocity. The editors praise Mr. Borden for his capable leadership while in opposition and predict a period of prosperity for the Dominion under his administration.

An interesting feature of the comment indulged in by the able old country editors is the unanimity with which they agree that a blow has been struck of a most decided character, against the idea that Canada would harbor her heritage in the world-wide empire for any temporary trade advantage. The comment follows:

CANADA DID NOBLY.

Morning Post—"The people of Canada have risen nobly to a great occasion. They have realized that fate and the treachery of their politicians have placed them in the forefront of the battle for Imperial unity. No temptation was wanting to make them faithless to their trust. They were offered the greatest market in the world and the Imperial government, which should have guarded the cause of Imperial unity, sneered at their loyalty. Even Rt. Hon. James Bryce, British ambassador to the United States, aided and abetted the American rather than the British interests and joined in an elaborate pantomime to throw ridicule on their fears of annexation possessed.

GIVEN DECIDED BLOW.

"Reciprocity has received so decisive a blow that it may be years before it will again raise its head. Laurier has again, and this time finally, learned the lesson which he has been taught in 1841, that the independence of Canada is a thing with which it is disastrous to meddle. It may be admitted that there is one serious danger ahead, but it is a danger which the frankness, boldness and tact which Mr. Borden has proved himself the possessor of, will endeavor to overcome. There must be a measure of reduction passed, which will inevitably favor those new provinces which are most tempted by the bait of reciprocity."

Daily Mail—"At the parting of the ways" Canada made the fateful choice and she had chosen aright, and the affect of her action will be felt far and wide. She has chosen a message of hope and encouragement to the imperialist party in this country and made the attitude of her people to the motherland and unionist-takeable. Once and for all, she has proved that she has not weakened in her attachment to the mother land."

Daily Telegraph—"Now that the verdict has been given against reciprocity with a shout that will ring round the world. And there is no reason why Imperialists in the mother country should not give full and free expression to their profound relief that the reciprocity agreement has received its knockout blow and that the principle of reciprocity is dead—dead beyond all resurrection and it is likely to be a very long time, we fancy, before the statesmen of either country will risk the experiment of proposing another conference on the subject. It is Sir Wilfrid's old policy the people of Canada have affirmed by rejecting with the utmost decisiveness the perils of the new."

OLD IMPERIALISM.

"Canada has declared for the old Imperialism from end to end of the Dominion. She declares that she means to stand by the old path of safety, along which, in the short space of a few years, she has risen to greatness and won a proud position among the nations. We do not, of course, doubt for an instant that Laurier's imperialism is just as sincere and convinced as ever, but the present gains have been rejected for immeasurably greater benefits in the future."

CANADA'S POSITION FIXED.

"Political instinct has combined with commercial long sightedness to keep Canada from the hazardous experiment and she will remain, as before, a good friend and amicable neighbor of the United States, but will still look mainly east and west and will still develop a spirit of British imperialism, rather than along American lines."

WE SHALL BE VASTLY SURPRISED.

The Telegraph finally comments, "if that is not also found to be the unanimous feeling in all the British dominions and if that be so, how can it be seriously contended that Canada's place in the empire is not a matter of this question of reciprocity."

CANADA IS STRONGER.

Daily Chronicle—"The Conservative instinct which has been a certain element of strength to the free trade system of this country is a tower of strength to the protective system. Canada is stronger when protection is the system in possession because under it the powerful interests become entrenched, and it is very hard to dislodge them. The Canadian people, moreover, were able, at one and the same time, to vote a change in their established system and to indulge the taste for a change in their rulers."

POWERFUL COMBINATION.

"Protection, national patriotism and imperial sentiment made a powerful combination for the policy of reciprocity as now at this time (though it one goes far enough back it was the old policy of both parties) it had powerful vested interests opposed to it. It lent itself readily to misrepresentation, and the combination proved too powerful, even for Laurier, to succeed against it at the first time of asking."

WHAT THE FUTURE WILL BRING FORTH.

"What the future will bring forth remains to be seen. The redistribution bill is nearly due, though the redistribution has a way of not answering electoral expectations. The accession of voting strength to the west is likely to tell in favor of reciprocity. Sir Wilfrid Laurier has hinted at his retirement as a consequence of his defeat, but, like Gladstone, he will feel impelled to go on fighting for the sake of the cause."

LAURIER A SUSPECT.

Daily Graphic—"The fall of so staunch and tried an Imperialist, as Laurier should give us pause. Owing to reciprocity, perhaps also to certain enigmatical utterances of his at the Imperial Conference, he has become a suspect to the Conservatives, while his navy bill has aroused the ire of Henri Bourassa and his ultra-Nationalists, whose imperialism is a very mixed quality. Finally, there was a fear lest reciprocity would endanger the political status quo in Canada; a fear to which certain ill-judged obiter dicta of Taft and a foolish extravagance of a section of the United States press have unfortunately given too much color and substance."

"But even here the decision is not wholly Imperialist, for while the status quo of Mr. Borden also is chiefly the Imperial connection, to Bourassa it denotes above everything else autonomy and national unity in the identity of the Dominion. Happily Borden's majority is large enough to render him independent of Bourassa's equivocal support. Thus, at any rate, whatever were the mixed motives which have carried it to power, it is whole and sound on an Imperial issue."

"None the less," closes the Graphic, "we cannot but feel that this result, however gratifying it has been, is purchased by the disappearance of Laurier from office. He will, at any rate, have the satisfaction of knowing that in London service he has written a brilliant chapter in the history of Canada and the Empire."

GOOD WISHES FOR BORDEN.

Daily Express—"All parties here of admirer appreciation and homage as he lays down the burden of his office and all parties will greet Borden with sincere good wishes. The new premier will, we anticipate, follow in his predecessor's footsteps of encouraging a sane imperialism and working for his country's greatness and power."

"Mr. Borden will undoubtedly make it more difficult for our Radical rulers to meet Canadian suggestions with entire indifference. In good times and ill, Canada has never wavered in her loyalty to the great idea behind the Empire, and one again can she declare, 'I have proven faith in my heritage by more than word of mouth.' Canada has refused to be beguiled and has rejected the scheme with magnificent emphasis."

THE COUNTRY'S NEEDS.

"Men have forgotten the ties of party in the need of their country," declares the Express, in closing, "the victory of Laurier's great name and the memory of his splendid services have not been sufficient to blind his followers to the fact that they were being tempted to harbor their heritages for a mess of pottage and to sell their right to stand as the youngest among nations for alleged immediate economic advances, though the temptation was well devised."

Financier—"Reciprocity has suffered the fate of all measures in advance of public opinion."

CHECKS THE NARROW VIEW.

Financial News—"The weak-kneed parochial policy advocated by a certain school of radicalism has received a decided check and it may be hoped that a repercussion will stimulate the imperialist party in this country to fresh endeavors."

BORDEN'S MAGNIFICENT FIGHT.

Financial News—"The result of the

most tremendous victory for Imperialism in the British empire is a splendid affirmation of the policy of Imperial preference addressed to the mother country. Mr. Borden has fought a magnificent fight in the face of endless discouragements and his win is as much a personal victory as an Imperial triumph.

"It need not be pointed out how a victory for reciprocity would have been heralded in this country as another advance for free trade and as another blow at any scheme for inter-imperial trade relations. Now that reciprocity has been beaten, it follows as a necessary inference that the defeat is a triumph for Imperial preference and in many a free trade citadel the results of the Canadian elections will be read with more than consternation."

IN HISTORY'S PATH.

The Times—"Canadians proved yesterday what they have often proved in the past—that the nation created by the British North America act will continue to be what its formers desired and labored for and what its own historic history implies. Mr. Borden may claim with justice that his majority represents a substantial and solid opinion in every part of the country and among every class of community. He has worked, and must have endured much in making his position clear."

PRINCIPLES OF GREATNESS.

"Often in difficulties with sections of his own party to whose leadership he succeeded in a time of almost complete disintegration and impotence he had led it with an honesty of method, a grasp of principle and a consistent disdain of the lower ways of politics who prove him worthy his new place and name. Laurier will live long for the work which he has done in the same field. The founder of imperial preference has his heritage stood consistently for the natural development of his country and no-hing but the belief that reciprocity would be dangerous to a national and imperial unity could weaken the faith of both races in Canada in his use of power."

McGillivray Put Up A Splendid Fight

One of the Finest Political Battles of Dominion Put Up in Red Deer.

One of the finest political battles against overwhelming odds, says the Calgary Herald, was that put up by A. A. McGillivray, the youngest man contesting a seat in the west, against Dr. Michael Clark, M.P., of Red Deer, the seasoned campaigner and his war-experienced veterans. Mr. McGillivray was called by his party to contest as difficult a seat as there was in the Dominion, he knew before he entered the list that he was almost sure of defeat, but that did not stop him and he went into the fight with a cheerfulness and vigor, and

clean system of campaign, that had Clark and his supporters sadly worried at more than one stage of the game. McGillivray's whirlwind, convincing style of eloquence won him hosts of personal friends wherever he went, he started in the campaign an unknown man, he finished it known as one of the cleverest and most promising men in politics in Alberta. His defeat was in reality a victory for him, for he proved of what mettle he is made.

PROVINCIAL RIDINGS. In the Red Deer federal constituency are the provincial ridings of Olds, Didsbury, Innisfail, Red Deer, Ponoka, Lacombe, Sedgewick, Stettler; all of these excepting Red Deer are held by Liberal members of the provincial house. In addition to this there was Senator Peter Talbot, and other leading politicians, to fight Mr. McGillivray went cheerfully

forth, supported slightly from Calgary, and chiefly by local talent at the different meetings. E. Michener, M.P.P., for Red Deer, helped him vigorously, the different Conservative associations in the various districts did their best, but they were against the strongest machine in Alberta, not excepting Edmonton, and they went to a foredoomed defeat. The government lost no efforts to win in this riding, Clark has won it strongly in his personal opinion, he had the friendship of the government, he held out the alluring attraction of government patronage.

FARMING COMMUNITIES. In addition to this, it was in a farming community where the majority of the farmers had believed implicitly in the doctored and padded Liberal propaganda concerning the increased price of farm products if reciprocity passed. Into the constituency the government threw its best men, Hon. Frank Oliver, Senator Peter Talbot, Geo. P. Smith, M.P.P. for Camrose, Jos. Stauffer, M.P.P. for Didsbury, Hon. Duncan Marshall, provincial minister of agriculture, John Simpson, M.P.P. for Innisfail, Dr. Campbell, M.P.P. for Ponoka; Puffer, M.P.P. for Lacombe, Stewart, M.P.P. for Sedgewick, R. L. Shaw, M.P.P. for Stettler, Hon. A. L. Sifton, premier of Alberta, and scores of workers.

FOUGHT LONE BATTLE Opposed to this array of talent was A. McGillivray, an untutored campaigner, E. Michener, M.P.P. for Red Deer, leader of the opposition in Alberta, the various local Conservative associations, and that is all. They fought a lone battle, helped out in four or five isolated cases by speakers from Calgary. But McGillivray and his supporters put up a great fight, they had Dr. Clark frightened more than once, they had the Liberals shaking their heads in doubt. Still, the power of the supposed impregnable position of the Laurier forces, the fallacious reciprocity arguments, the hope of government reward, and the seasonal work of the Liberal organizers of the riding, proved too much for McGillivray and his backers and they were defeated. But despite this, he has been a win for McGillivray; he is known, he has made more personal friends in his own canvass than Dr. Clark has made throughout all his campaigns, and he is marked as one of the coming men of the west.

CANADA TO SUFFER MOST.

Cleveland Plain Dealer—"The defeat of reciprocity by Canadian voters is both a surprise and disappointment to observers in the United States. Practically the only argument against reciprocity has been the jingoistic. The annexation bugaboo has been paraded, 'loyalty' has been shouted, but the Conservatives had presented no real argument against the policy of closer trade relationship between two people. There is no denying that America, as well as Canada, is the loser, but the issue in this country was not so vital as it was in the Dominion, nor will this country suffer so appreciably."

Let Us Show You

Some of the many nice things we have recently received, that go toward furnishing and beautifying the home,

We have some new arrivals in Iron, Brass and Wood beds which are the very latest.

Baby's Terrible Eczema

Hands Tied to Prevent Scratching. Five Doctors Failed to Relieve, but Zam-Buk worked a cure.

Mrs. Chas. Levere, of Prescott, North Channel, Ont., tells how Zam-Buk cured her baby. She says: "My baby's head and face was one complete mass of sores. The itching and irritation were fearful, and the little one's plight was so serious that at one time we feared her ears would be eaten off by the disease. 'We had to keep her hands tied for days to prevent her rubbing and scratching the sores. Doctor after doctor treated her in vain, until we had had five doctors. They all agreed it was a frightful case of eczema, but none of them did any permanent good.

"As a last recourse we were advised to try Zam-Buk. The first box did so much good that we felt sure we were at last working in the right direction. We persevered with the treatment until we had used thirteen boxes, and at the end of that time I am glad to say Zam-Buk had effected a complete cure."

For eczema, eruptions, rashes, tetters, itch, ringworm and similar skin diseases, Zam-Buk is without equal. It also cures cuts, burns, scalds, piles, abscesses, chronic sores, blood poisoning, etc. All druggists and stores at 50 cents a box or post free for price from Zam-Buk Co., Toronto. Refuse imitations.

GIRL WANTED.—Highest wages paid to good general servant. No family. Apply Mrs. W. L. Gibson, Park Street. Sept 20, 11.

WANTED.—Good general servant. No cooking. Apply to Mrs. J. M. Smith. Red Deer, Sept. 12.

Smartest Styles in Ladies Fall Coats

There are now to be seen in our ready to wear section a very large variety of the snug long coats, the most popular style of the season. The big roomy loose coat made of those extra heavy, mannish looking tweeds is very smart looking. People can't help but admire them, and then the comfort that one gets from one of these coats is worth a great deal. Some of these coats are made of heavy plaid tweeds, or what they call the reversible goods. For instance the coat is made up with the plaid inside used as a lining and the plaid outside, the plaid being used as a trimming for the cuffs, collars, pockets and revers. You'll admire these coats when once you have seen them. Prices from \$15 to \$20.

Then there's the Black Pony Coat so popular in the large cities last year and to be worn a lot this season. Very handsome, they are too in appearance as well as warm—both the military and notched collar styles, lined with heavy mercurised lining and trimmed with black frogs and fancy braids. Prices of these are from \$23.50 to \$30.00. Many other styles too, be sure and see these when next you are in.

LIBERAL GOVERNMENT SWEEP FROM POWER

Imperial Preference Stronger Than Ever

Montreal, Sept. 21.—The Laurier Government and reciprocity suffered overwhelming defeat in the Canadian elections held today. By a veritable political landslide the Liberal majority of 43 was swept away, and the Conservative party secured one of the heaviest majorities, upwards of fifty, that any Canadian party ever has had. Seven cabinet ministers who had served with Premier Laurier were among the defeated candidates. The Liberals lost ground practically in every province of the Dominion, except Alberta. Where they won, their majorities were small. Where the Conservatives won their majority was tremendous. Ontario, the leading province of Canada, declared almost unanimously against the administration and reciprocity. R. L. Borden, leader of the Conservative party, shortly will become the prime minister of Canada. He will be supported in parliament by a working majority of members far more than ample for his purposes.

The government defeat means that the Fielding-Knox reciprocity agreement, ratified by the American Congress in extra congress, will not be introduced when the twelfth parliament meets. The Conservatives are committed to a policy of trade expansion within the empire and a closed door against the United States.

SIR WILFRED RETIRES.
Although re-elected in two constituencies in Quebec, the defeat of the Liberal party also means the retirement from public life of Sir Wilfrid Laurier, who for nearly two decades has directed the destiny of the Dominion. Several times during the latter campaign which preceded today's election, the venerable premier said that he desired the end of his career should be the end of his career, that he never would consent to lead a minority in opposition to a Conservative government.

A Liberal membership of 53 from Quebec was cut down to 36, which taken alone, seriously threatened the supremacy of the party. But it was in Ontario that the Conservatives won their greatest victories. Spurred on by appeals to patriotism and the cry that reciprocity was the entering wedge for annexation, the Conservatives swept nearly every thing before them. That province, which in the last parliament was represented by 25 Liberals and 51 Conservatives, will send a representation to the next composed of 13 Liberals and 75 Conservatives.

SIR WILFRED'S STATEMENT.
"There is no doubt that we have been decisively defeated," declared Sir Wilfrid Laurier early in the evening at Quebec to a group of friends who had gathered with him to hear the returns. "I gladly lay down the premiership, a burden which I have carried for fifteen years. We believed that in making the reciprocity arrangement we had done something which would be greatly to the benefit of the people of Canada. The election results have shown otherwise, and I bow to their decision. I regret that we have been unable to carry reciprocity, which I still believe would have promoted the material advancement of Canada, and would have promoted the growing friendship between the United States and Great Britain. However, the country has spoken, we must bow to the inevitable, and I cheerfully do so."

THE LANDSLIDE NOT EXPECTED.
The landslide was not expected by either side. The Liberals were confident that they would be returned by the people with an increased majority. They believed that reciprocity would be most acceptable to the Canadian electors. While the Conservatives claimed they would have a majority they did not expect that it would be so large. It had the general verdict of the country would be given so decisively against the government. They feared that reciprocity would prove popular with the farmers of Ontario and the far-

mers and fishermen of the Maritime Provinces, and while confident that they would win the cities they were dubious as to the result in rural constituencies. However, in Ontario especially, the government vote went sadly against reciprocity, and in the Maritime Provinces it did not prove to be the popular issue expected. The farmers and fishermen of the east did not appear to have placed the high status upon the American market which was anticipated. While Sir Wilfrid Laurier, the prime minister, was safe in two counties, the Conservatives made a great harvest of ministerial heads. Thirteen members of the Laurier cabinet sought reelection and seven of them were defeated. Minister of Finance Fielding and Minister of Customs Patterson, who made the reciprocity bargain with the United States, failed to win their elections. Sir Frederick Borden, minister of militia, McKenney King, minister of labor, Sydney Fisher, minister of agriculture, George P. Graham, minister of railroads, and Wm. Templeman, minister of inland revenues, also went down to defeat. The province of Quebec rejected one minister, British Columbia one, Nova Scotia two and Ontario three. A. B. Aylesworth, minister of justice, did not seek reelection as he had decided to retire from public life. Sir Richard Garfield, minister of land and commerce, who is a member of the Canadian senate, was not required to go before the electors. Frank Oliver, minister of the interior, had the biggest majority of any of the cabinet ministers. Jacques Bouchard, solicitor general, who is regarded as a semi-member of the administration, was also defeated.

POPULAR MAJORITY BIG.
Although the majority of seats won by the Conservatives was more than half a hundred, the popular majority against the government and reciprocity is even more overwhelming. Where Liberal seats were retained or won from the opposition, it was generally done by an exceedingly small margin. The Conservatives were returned by majorities larger than have ever been given before in the Dominion.

The election results show the electors were moved by sentiment more than by material considerations. Throughout the campaign the Liberal speakers and the government party in appealing for the support of the government and reciprocity did so chiefly on economic grounds, maintaining that it would promote the prosperity of Canada and would lead to annexation with the United States.

WAVED THE FLAG.
The Conservatives on the other hand, while arguing against the economic advantages of reciprocity, dealt with more sentimental considerations, asserting the result of reciprocity would lead Canada from Great Britain and to the United States, and to relying upon the electors to prevent this.

The people responded to that appeal, Ontario, the largest province of all, in the most whole hearted way, and the other provinces, with the exception of Quebec, Alberta and Saskatchewan, hardly less so. Even the prairie west, which was supposed to desire reciprocity above all other things and where American settlers have gone in large numbers, did not go unanimously government. It has been an axiom in Canadian politics that no party could succeed without a majority in the province of Quebec, but the results of today have destroyed this theory, for the government, though defeated, retained a majority in Quebec. Many who believed that the Conservatives would win, expected the majority would be comparatively small and the result would be that the French Nationalist group and the Opposition would hold the balance of power and that Henri Bourassa, their leader, would seek election in some constituency within a short time and make his appearance in parliament to direct them. If this had been the case, they would

have occupied the post which the Irish party have sometimes had in the British parliament and might have made the position of the prime minister an exceedingly difficult one. INDEPENDENT OF BOURASSA.
The splendid majority obtained by R. L. Borden in the English provinces will make him practically independent of the French group, for he has a working majority without them. The effect of this will be to minimize greatly the Nationalist party which Mr. Bourassa has been creating for eight years past. The great Conservative majority which has been sent to Mr. Borden by the province of Ontario, makes it certain that this province will dominate Canadian affairs for some time to come. The retirement from public life of Sir Wilfrid Laurier, now nearing his 70th birthday, soon will be announced, and Liberal members of parliament remaining will be called upon to choose his successor. The defeat of so many leading cabinet ministers makes it difficult to foresee upon whom the choice will fall. Mr. Fielding, Mr. Graham and Mr. Fisher had been spoken of as possible successors to Sir Wilfrid Laurier, but they all have been defeated.

TRIUMPH FOR MANUFACTURERS.
The verdict is looked upon as a triumph for the manufacturers of Canada who openly and avowedly opposed the government because they feared the removal of duties upon natural products would be followed by an attack upon the protection which Canadian manufacturers have enjoyed for many years.

Robbers Got \$235,000 Haul

Bank of Montreal at New Westminster, B.C., Burglarized.

Vancouver, Sept. 15.—The bank of Montreal at New Westminster was robbed last night. Actual figures of the loss were obtainable this afternoon from Manager G. D. Brynner, who has been in charge at New Westminster for twenty years. There was \$348,000 in the bank, and of this \$255,000 was taken. Of the amount taken one hundred and fifty thousand dollars was in \$5 and \$10 bills. These were all new and the bank still has the numbers and asserts that payment on them can be made. The loss was \$38,000 in gold of which twenty thousand was taken and the remainder left. An extra large amount of money was on hand for paying off fishermen and hands from the hop fields.

The police are at a standstill. Detectives are being hired by the bank officials, but there has been at least yet to chase in any direction. All the circumstances indicate that the robbers had the haul very carefully planned, and that they had been in Vancouver and had their booty safely housed before daylight, and there are a dozen other different directions that could have been taken. The robbers left behind them a can of nitro-glycerine and the pick and crowbar which they used in breaking into the vault.

NOTICE!

I, David Bowie, of Topeka, Kan., U.S.A., hereby give notice that I will not be responsible for any debts contracted by my brother, J. B. Bowie, of Evans, P.O., in the Province of Alberta.

Before and After the Election

Field Crops of Canada

Ottawa, September 12.—A bulletin on the field crops of Canada issued today gives their average condition by provinces at the end of August, together with estimates of the production of spring wheat, oats and barley at that time. The per cent. condition of wheat is given as 86.80, of oats 84.4, and of barley 84.73, which is about five to seven per cent. higher than last year and nearly the same as two years ago. The other crops range in condition from 80 to 90 per cent. The bulletin also gives the average condition of the field crops in the Dominion, which is somewhat lower than in 1909 and 1910. The rains of August hindered the ripening of grain and some injury was caused by hail storms, low temperature and rust. Towards the end of the month frosts prevailed in many sections of the Northwest provinces, the fall extent of which could not be determined at the date of the report, but in the case of wheat, oats and barley production was lowered by probably 12 per cent. which has been followed in the bulletin. In the older provinces the grains ripened earlier and little damage was sustained excepting from drought in some localities, and the reported condition was 75 or over.

The average yield of spring wheat is estimated at 10.14 bushels per acre for the Dominion, which is seven bushels more than last year, and the total yield at 166,328,000 bushels. The fall wheat was reported last month at 17,000,000 bushels being grown almost wholly in Ontario and Alberta. The total wheat yield of the country is therefore estimated to be 204,628,000 bushels, or 81.8, 000 bushels more than last year at the same date. The average per acre is 19.50 bushels, or 6.30 bushels per acre more than last year.

For the Dominion the yield of oats is given as 308,153,000 bushels, which is 8,500,000 bushels more than last year's estimate at the same date, and the average at 35.81 bushels per acre, being more than last year by 7.10 bushels. The average for barley is also higher than last year by 7.31 bushels, and the total yield is estimated at 15,559,000 bushels as against 39,388,000 bushels for last year.

The estimated yield of spring wheat for Manitoba, Saskatchewan and Alberta this year is 181,535,000 bushels, of fall wheat 3,103,000 bushels, of oats 2,758,000 bushels and of barley 30,205,000 bushels, as compared with 45,898,000 bushels spring wheat, 1,082,000 bushels fall wheat, 22,201,000 bushels oats and 14,723,000 bushels barley in the previous year.

In Prince Edward Island, Nova Scotia and New Brunswick the estimated yield of spring wheat is 1,353,000 bushels, of oats 10,600,000 bushels and of barley 417,000 bushels; in Quebec 1,777,000 bushels spring wheat, 44,611,000 bushels oats and 2,382,000 bushels barley; and in Ontario 2,162,000 bushels spring wheat, 13,513,000 bushels fall wheat, 103,077,000 bushels oats and 18,528,000 bushels barley.

The final estimates of last year printed in the December Monthly gave the production for the whole country as 16,610,000 bushels fall wheat, 133,379,000 bushels spring wheat, 322,349,000 bushels oats and 45,117,000 bushels barley.

The October number of the Census Monthly will give the statistics of the areas of field crops of the Dominion this year as taken by the Census of the first of June.

School Board

Chairman R. L. Gaetz, Trustees Carwell, Payne, Simpson and Munro, secretary and Principal McKenzie attended the School Board meeting Wednesday night.

The pupils enrolled were 362, as against 310 last year, an increase of 16 per cent. The total in the high school was 65, an increase of 40 per cent. Another teacher in the primary grades was needed. Truancy by-laws should be passed.

North Red Deer people, through Mr. Webb, presented a largely signed petition for a public school over the river. Mr. Webb pointed out the long distance in the winter to the present school, the growing population, and the wisdom of having a school there. The Secretary will write the Department for model plans.

The chief accounts were Gaetz-Corsett Co., scribblers, \$227.61, and H. G. Stone & Sons, \$80 and \$86.26, reprinting, etc., at school.

The Principal, Vice-Principal and Secretary were appointed a committee to raise the standard upon which medals were granted by citizens for Departmental examination results.

The Secretary will consult the Town Commissioners re. disposal of delinquents.

The Principal was rather disposed to raise the standard upon which medals were granted by citizens for Departmental examination results.

Reduction in Freight Rates

Of Great Importance to Red Deer

The Editor The News, Red Deer.

Dear Sir,—Your readers will no doubt be interested to know that a new rate regarding freight rates, that will probably be of great importance to Red Deer, has just been made by the Interstate Commerce Commission in the United States.

Hitherto it has cost less to ship a carload from Montreal to Vancouver than to Calgary. This rate to Vancouver was fixed to meet the competition of the water carrying, the rate to Calgary, Nelson and Lethbridge, like the rates from the East to Salt Lake City, Spokane and other interior Western points, was based upon the water rate to the coast, plus the local charges back again.

While the Canadian Railway Act contains a clause specifying that in no case shall the charges for a longer haul be less than for a shorter haul, other conditions being equal, it has been made by the Commission that this rule does not prohibit the railways from meeting the competition of United States roads on the Coast, which, in turn, has been governed by water competition till now.

By the decision just handed down, while the long and short haul system has not been completely established, a greater approximation to it has been made than ever before.

From St. Paul territory it is decreed that charges to interior mountain cities shall in no case be greater than to the Coast terminals.

From the Chicago zone 7 per cent. additional may be charged, from Buffalo zone 15 per cent. additional is allowed, and from the New York zone 25 per cent. additional.

The increase in the territories more eastward is a recognition of the importance of water competition, and the new decision is an attempt to more closely approximate the length of haul and the cost of water transportation to the factor which is important to the transportation company, i.e., the competition offered by the ship owners.

The new rates show that traffic charges will be reduced as much as 30 per cent. to Salt Lake City, Spokane, and other interior Western points. What this means to Red Deer will be seen when it is remembered that the Canadian railways act in uniformity with the United States lines in the handling of western traffic. And indeed, to hold their business it will be necessary for them to meet the rates of their rivals across the line, and our rates from east to west are admittedly based upon those of the American roads.

There should no longer be a higher rate from Montreal to Toronto to Red Deer, than from the same cities to Vancouver.

This will no doubt give Red Deer advantages as a distributing point, and as the reductions in the States have in some cases been so large, the benefit to wholesalers, retailers, and the consuming public will be material.

It remains to be seen whether any such reductions may or may not, favor Eastern Canadian manufacturers as against American competition.

Yours truly,
J. R. DAVISSON.

Gourlay Pianos

ARE NOT MERELY FIRST-CLASS, THEY ARE SOMETHING BETTER.

Good pianos that are regarded as first-class and, to-day are as fine as they ever were, are not only out-classed but appear at a disadvantage when compared with the Gourlay Piano, because of its greater achievements in construction and tonality.

We ask you to examine a Gourlay for yourself.

The September Rod and Gun

The large and ever growing army of game bird hunters will find ample variety in stories dealing with their favorite recreation in the September issue of Rod and Gun in Canada, published by W. J. Taylor Limited, Woodstock, Ontario. From Newfoundland, to British Columbia is a wide range and all is included in this one number, the differences in the sport enjoyed in the various provinces being pleasantly conveyed in a series of stories dealing with actual occurrences in the field. Further variety is given by a finely illustrated story of the Cruise of the Papoose, a camping story, and some excellent verses. Geese, ducks and prairie chickens afford the very best of sport, and their devotees tell of the complete enjoyment experienced in a way to make their confederates resolve to make similar trips with the same object in view. Wing shooting is a sportsmanlike occupation and with only fair conservation there should be ample opportunities for all sportsmen to enjoy it. The issue of this fine recreation for an indefinite time to come. A more interesting number of this fine magazine has never been issued.

THE KIND OF FURNITURE TO BUY

The other day, a customer of ours told us that some Furniture she had bought of us over a year ago, sold recently, at an auction sale here, for more money than she had originally paid for it. That's pretty good after having a year's use of it.

That's the kind we keep—The goods that look well, the kind that wears well, and the kind that sells well.

Whenever you are in need of anything in the House Furnishings, give us a trial order. Our prices and goods are right.
